FOREST FIRE WARDEN'S REPORT

The 1941 fire season was the worst on record in the State of New Hampshire. More fires occurred, more
area was burned over, greater damage was done to our woodlands, higher losses were sustained in other real property burned and the cost of suppressing fires was greater.

There will, perhaps, never be more ideal conditions for fire than existed in 1941. A scarcity of rain left the forests in a highly inflammable condition. The accompanying high winds spread fires with almost lightning rapidity through the parched forest lands. These conditions, coupled with human carelessness, made 1941 outstanding in the state's forest fire record.

As we approach the 1942 fire season, we wonder just what may be in store for us. The woodlands are in as critical condition as they were last year, if not more so. Blown down trees still clutter sizable acreages of our woodland areas; the increased tempo in lumbering operations due to war demands are each day adding to the fire hazard an ever increasing number of acres of slash land; and we face the coming fire season with greatly reduced personnel, due to the shifting of men from our small communities into the armed forces of the country and into defense industries. If, however, everyone will be careful, if they will follow the rules and regulations laid down for the use of fire in and around woodlands, much of our difficulties will be eliminated — our fires kept few in number with a consequent saving of expense to town and state.

There are so many possibilities for trouble this year it will require the whole-hearted and patriotic cooperation of everyone concerned if we are to avoid serious difficulties. Persons hostile to the best interests of our country and subnormal individuals affected by the excitement of the times may easily cause tremendous confusion and disruption of local activities by deliberately starting fires in our woodlands. Suspicious circumstances connected with every fire should be made known to the proper authorities. Wardens and Depu-
ties are being instructed this year to investigate all fires carefully. Parties at fault will be held strictly responsible. With our forces weakened, it becomes more necessary for everyone to comply with regulations which have been set up to govern the use of fire in our woodlands. These are briefly as follows:

1. Secure a permit from your local forest fire warden to burn brush or other debris in or near woodlands, or where fire may be communicated to such lands, once the snow has left the ground. Violation of this requirement makes the responsible party liable.
   a. To a fine not to exceed $500.00 or imprisonment of not more than one year or both.
   b. To the town for expenses incurred by the warden in attending or extinguishing such fire.
   c. For damage to abutting owners if fire runs upon abutters’ property.

2. DON’T drop or throw from any vehicle while same is upon a public highway or private way and DON’T drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.
   Violation of these prohibitions penalizes whoever is found guilty with a fine of not more than $25.00.

3. DON’T fail to promptly notify your local warden of any fires you see.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Lee:

In my annual report of 1939, I suggested that consideration be given to some other form of district organization than three one-room unclassified schools, though these have been improved and well maintained through the years.

After the South Lee schoolhouse was destroyed by fire on December 14, 1941, it was deemed an opportune time and an economical measure to take a step in this direction. Through the generous offer of the Selectmen, the Town Hall was made available temporarily for school quarters. The pupils of the South and Center schools were "classified" into Primary and Grammar groups of four grades each, so that each of the two teachers has just twice as much time as before for each grade. The present organization is as follows:

During the past ten years, many new and remodeled schoolhouses have been built in this state. Some of the places with situations similar to Lee are Clarksville, Dunbarton, Francestown, Hampton Falls, Hill, Langdon, Litchfield, Lyman and Tuftonboro. Construction has ranged all the way from simple additions on one-room schools to thoroughly modern buildings.
like that in our neighboring town of Barrington. The cost of these projects has ranged from $1,500 upward, many costing less than $10,000. After the War, there will doubtless be liberal Federal Aid for a national school building program. Such aid has been granted to many school building projects in New Hampshire to the extent of 45 per cent of the project cost.

Last year there were 297 one-room “mixed” schools in New Hampshire. Ten years ago there were 512. In this Supervisory Union in 1929 there were 16 such schools; now there are six. At one time there were seven one-room schools in the Town of Lee. In the 1885 School Report for the Town of Lee, speaking of the then recent consolidation of the Lane and Hale Districts and also the Hill and Hook Districts, Horace Scales for the Superintending School Committee wrote as follows:

"The practicability of this union has been fully demonstrated . . . by the marked improvement in interest and advancement of studies. Where schools are too small the force of enthusiasm of numbers is wanting. Where the average attendance of a school is less than twenty scholars, it is better that it should be combined with the school of an adjoining district. The opposition to union, when for the best interest of the pupil, is absurd . . . particularly when the fact is ignored that the legislature has provided an appropriation for the conveyance of children."

Lee is a small town in area and ideally situated for transportation to a central point. Roads are hard surfaced to a great extent, and kept plowed in winter. Children to be transported, some of whom are now walking up to two miles to school, would not be obliged to walk more than one mile to meet the school bus. The school population could well be accommodated in two rooms, saving the salary of one teacher and the upkeep of one building. In time the children at the
north side should receive the same benefits of a classified school that the children in the rest of the town are now receiving. It is probable that a continuance of state-aid, which this year amounts to $1,115.25, depends upon such a classification for the whole town in the near future. This could be done by utilizing the two remaining schoolhouses, or the Center building and the Town Hall for all pupils, or by remodeling the Center building, or by new construction.

Besides the usual health examination and reports to homes, the School Nurse, Miss Margaret Macdonald, was called upon to deal with school precautions against occurrence of contagious diseases. Last April the Nurse was fortunately in procuring an Audiometer with which the hearing of the children was tested, with very gratifying results.

Our new electric lights in the schoolhouses have made it possible to have evening community gatherings. At one of these, held in the North Lee School on October 23, 1941, sixty-one persons were present. Mrs. Benjamin Kendrigan, president of the New Hampshire Congress of Parents and Teachers, and Rev. Mr. Streeter of Exeter were the speakers.

_Honor Roll of Perfect Attendance for One Year_

Roger Jennison, George Smith.

Respectfully submitted,

CHESTER W. DOE,
Superintendent of Schools.
